

# OWNERSHIP IS UNDER PRESSURE

Structural shifts are challenging traditional capex models

## FASTER OBSOLESCENCE

95% say equipment becomes obsolete faster than before

43% say assets become obsolete before ROI is achieved

Technology cycles are now shorter than investment cycles

## CAPITAL LOCK-UP CONSTRAINS GROWTH

87% say capital lock-up has constrained growth

13% say it has never impacted their business

Ownership ties up capital that could be deployed elsewhere

## DECISION-MAKING IS SLOWING

64% say technology uncertainty delays CAPEX decisions

Uncertainty is slowing investment decisions in a fast-changing environment

## KEY TAKEAWAY

The question is no longer 'Should we own?' but 'When does ownership still make sense?'
